Subject: Update on Rosemont MOA?

Hello Karen and Peter,

It has been some time since we last spoke regarding the Rosemont Copper project. Would you be amenable to having a call sometime next week to give EPA an update on the status of the MOA and to share which of the Nations concerns may have been resolved and which of them remain outstanding?

Pam Overman and I both have some room on our schedules on Monday and Tuesday if that might work for you. Also, if one or the other of you feels they need not be involved on such a call, that is fine, I just wanted to drop a line to you both as I was unsure who might be the most appropriate contact at the Nation at this time.

Thank you.
